

HeartSine® Leasing Program

For AEDs, Accessories and Programs

Lease a life-saving HeartSine AED, and eliminate your budget constraints with a low monthly payment. The HeartSine Leasing Program enables customers to lease one or more of our samaritan PAD automated external defibrillators (AEDs) for a low monthly cost, and a \$1 buy-out at the end of the lease.

In partnering with Univest Capital, HeartSine is able to provide creative leasing solutions that offer several advantages to businesses:

Conserve Capital. Leasing can be one of your best options to obtain the equipment you need to protect your employees without spending your important capital reserves.

Affordable Payments. With affordable fixed monthly payments—as low as \$49—the HeartSine Leasing Program gives you an reasonably-priced option for purchasing life-saving AEDs. Your payment remains the same from first to last, and the final buy-out is just \$1.

Tax Advantage. To encourage businesses to buy and lease new equipment, IRS tax code Section 179 allows businesses to deduct the full purchase price of qualifying equipment purchased or financed during the tax year. Deducting the full purchase price of AEDs from the company's gross income is a great way for your business to invest in its employees and itself!

Municipal Financing. Univest Capital's years of experience in financing equipment for state and local governments, school districts, volunteer fire departments and other agencies and municipalities makes the company one of the most knowledgeable lending institutions for these type of customers. From small equipment needs of \$1,000 to greater capital requirements up to \$500,000, Univest makes municipal equipment funding a simple process.

Lease Programs

- Payments start as low as \$49/month*
- End of lease buy-out just \$1
- Choose from our standard offerings, or customize your program to include AEDs and accessories

Benefits of Leasing with Univest Capital

- Simplified application process
