

## FREE Pad-Pak<sup>™</sup> Program Tell Us About an SCA

If you have used a HeartSine samaritan® PAD during a Sudden Cardiac Arrest (SCA), it's critical that you TELL US, by providing HeartSine with the Saver® EVO file that contains comprehensive event data about the event and a completed Customer Event Form. This information is used by HeartSine to measure the success of our AEDs and to continually improve our products to ensure optimum results. When you provide the Saver EVO file, along with a completed Customer Event Form, we'll send you a free Pad-Pak for your efforts!

## **FREE Pad-Pak Rules**

- Immediately after the use of the AED during an SCA, contact HeartSine to report the event and outcome.
- Immediately after the SCA event, follow the instructions in the Saver EVO manual to download the event data and submit it to HeartSine at www.heartsine.com/defib.
- Complete and submit the HeartSine Customer Event Form with information about the patient at www.heartsine.com/defib.
- HeartSine will send the free Pad-Pak as soon as the Saver EVO data and Customer Event Form have been received.

It's Lifesaving, Pure and Simple.
