

HeartSine samaritan® PAD

Public Access Defibrillator

4/4/14

HeartSine
Transportation flyer

- Finish size 8.5 x 11
- CMYK
- 4/0
- 300 dpi
- Bleeds two sides
- Stock and quantity TBD

Why HeartSine?

- ▶ **Significantly smaller size** fits nicely within constrained storage spaces
- ▶ **Lightest AED** on the market minimizes fuel costs
- ▶ **One-change maintenance**, due to one expiration date on the pads and batteries, means less to manage, inventory and order
- ▶ **Top vibration rating** MIL-STD-810F 514.5+ Category 4 for Truck Transportation over US Highways
- ▶ **Highest level of protection from dust and moisture (IP56)** offers unmatched robustness in both indoor and outdoor environments
- ▶ **Easy to use** by all rescuers, regardless of skill level, due to simple two-button operation, intuitive voice/visual prompts and no lid to open nor complex displays or controls
- ▶ **Industry leading 10-year warranty** for maximum reliability and lowest total cost of ownership
- ▶ **Most comprehensive indemnification coverage** protects both employees and passengers, whether trained or untrained, for the life of the AED
- ▶ **Complete AED solution** available to manage all aspects of your AED deployment—from installation to maintenance—through a single point of contact

Be Prepared for Cardiac Emergencies, Because Every Second Counts

In the transportation industry, safety is a mission statement, not just a tag line. Due to the nature of your business, access to emergency services is often limited at best. This makes immediate access to an Automated External Defibrillator (AED) for use in the event of sudden cardiac arrest (SCA) essential for the safety of your passengers and employees.

Whether SCA happens on a train, bus, subway, or other form of ground transportation, the likelihood of emergency services arriving on scene within the critical 10-minute window is minimal. That's why you need to invest in lifesaving technology that can increase the chance of survival for a passenger or employee who suffers an SCA.

With its advanced lifesaving AED technology, a HeartSine PAD (public access defibrillator) is a critical item in your emergency preparedness kit.

Lifesaving, Pure and Simple
